Press release

## Prix Versailles 2024: The World's Most Beautiful Hotels

In parallel to the World's Most Beautiful Restaurants List 2024, the Prix Versailles is unveiling the World's Most Beautiful Hotels List 2024: 16 newly opened or reopened hotels that have left an extraordinary imprint.

They will all be competing for three 2024 World Titles – Prix Versailles, Interior and Exterior – whose laureates will be announced at UNESCO Headquarters by late November.

Jérôme Gouadain, Secretary General of the Prix Versailles, would like to congratulate these 16 hotels that represent the best recent openings around the world:

“Through their architecture and their design, the World's Most Beautiful Hotels elevate the links between culture and tourism.

On the one hand, culture provides finesse, elegance, updates to ancient techniques and diverse shapes, forms, textures and colours, not to mention curiosity, which is the hallmark of a destination.

On the other, tourism showcases cultural assets, encourages visitors to discover new people and places, and brings knowledge to life.

The World's Most Beautiful Hotels are ambassadors for intelligent, sustainable tourism rooted in culture.”

After the World's Most Beautiful Museums List 2024, which was released on 13 June, the other World Selections – Emporiums, Airports, Campuses, Passenger Stations and Sports – will be announced in September.

## PRIX VERSAILLES
